Dear Colleagues,

We hereby inform you that ICOSA is no longer handling prosecution of the following patent filing, which has now been transferred to **CABINET LLR**:

Patent	Your Ref.	ICOSA Ref.
ZL201880010227.0 Granted on June 4, 2024	1906670FR08	IBIO-739/CN

Accordingly, effective immediately, we kindly request that you send all future correspondence to:

Vincent REMY vincent.remy@llrip.com
Anne Rivière anne.riviere@llrip.lu

CABINET LLR
2, rue Jean Lantier
75001 PARIS

We appreciate your work on our client's behalf and look forward to continuing to work with you on other matters.

Please confirm safe receipt of these instructions to all recipients by return.

Best regards,

Carine DOMINGUES

Patent Paralegal

<Holiday Notice> Please be informed that our office and the CNIPA will be temporarily closed from September 16th (Monday) to September 17th (Tuesday), 2024 for the public holiday of "Mid-Autumn Festival" in China. All deadlines will be automatically extended to the next working day, i.e., September 18th (Wednesday), 2024. Please note that September 14th (Saturday), 2024 will be adjusted as a working day. All messages sent via facsimile or email will be received safely during the period of the holiday, but they may not be answered until the next working day, i.e., September 18th (Wednesday). We would appreciate it if you could advise us timely in advance in case of any urgent cases to be handled or any deadlines to be met during this period. For urgent matters that need immediate attention, please feel free to contact Dr. Qinghong XU (Ms.) at qinghongxu@lungtin.com or mobile +(86)-15901519270. Thank you in advance.

Re: Chinese Patent for Chinese National Phase of PCT Application in the name of ACTICOR BIOTECH; Université Paris Cité; UNIVERSITE PARIS-XIII; INSERM (INSTITUT NATIONAL DE LA SANTÉ ET DE LA RECHERCHE MÉDICALE); UNIVERSITE PARIS-SACLAY (The Announcement No.: CN 110494447 B)

Title: INHIBITION OF PLATELET AGGREGATION USING ANTI-HUMAN GPVI ANTIBODIES
Chinese Patent No.: ZL 2018800102270
Your Ref.: IBIO-739/CN

Lung Tin Ref.: 1906670FR08

Dear Ms. DOMINGUES,

We are pleased to advise you that the China National Intellectual Property Administration (CNIPA) has issued the Certificate of Patent and announced the grant of the patent right to the above-identified application. The announcement number is **CN 110494447 B** and the date of the announcement is **June 4, 2024**. Enclosed please find a copy of the electronic Certificate of Patent and English translation thereof for your records.

In this Certificate it is informed that the patent right shall take effect as of June 4, 2024 and the duration of the patent right shall be twenty years counted from the filing date (i.e. ended by February 1, 2038). The patentee shall pay annuities before February 2 for each year. Please notice the following regarding the subject patent:

Annuity: The 8th year annuity should be paid before February 2, 2025.

Note: According to the Article 42.2 of the revised version of the Chinese Patent Law, as for the patent granted after June 1, 2021, the patentee of an invention patent can file a request for patent term compensation with the CNIPA within three months from the grant date (i.e. **September 4, 2024**) if there exists unreasonable delay during the grant process of an invention patent, and it takes more than 4 years from the filing date of the application to grant and the request for substantive examination has been filed for more than 3 years, and such delay is not attributable to the applicant. If the request for patent term compensation is approved by the CNIPA, the patentee should pay relevant fees as prescribed in the subsequent official notification.

After preliminary check, please be advised that the subject patent meets the above time requirement for requesting the patent term compensation. However, as the CNIPA has not yet promulgated the detailed implementing regulations for patent term compensation, we are not able to determine if there is any unreasonable delay during the grant process of the patent at present. If the patentee would like to file the request for the patent term compensation, please let us have your specific instruction preferably before **August 20, 2024**. Please note that the cost for filing the request for patent term compensation is CNY 700 (or USD 110) for our attorney fee and no official fee will be incurred. After receiving any decision regarding the patent term adjustment from the CNIPA, we will let you know and advise if any official fees should be paid.

In addition, please be informed that patent term extension (PTE) system for pharmaceutical related patents is introduced into the revision of the Patent Law of China effective as of June 1, 2021. Specifically, in the Article 42.3, it stipulates that, in order to compensate for the time spent in the review and approval of a new drug, for new drug-related invention patents that have been approved for marketing in China, China National Intellectual Property Administration (CNIPA) shall, at the request of the patentee, grant patent term extension. The patent term extension shall not exceed five years, and the total patent term since the approval of the new drug shall not exceed 14 years. Currently, the Implementing Regulations of the Patent Law and the Guideline of Examination are in the process of soliciting opinions. The interpretations to the Article 42.3 will be provided in the official release of the Regulations and the Guideline. Nevertheless, Article 6 of the Interim Measures clearly regulates that the patentee can initiate the PTE request procedure since **June 1, 2021**, and shall meet the time requirement within three months from the approval date of a new drug. (refer to Article 6, "Interim Measures", 2021.5.25)

Should you have any questions on above matters, please do not hesitate to contact us.

Sincerely yours,

Bo PENG (Ms.)

Dear Ms. DOMINGUES,

Thank you for your instructions and we confirm that we have paid the 7th year annuity with the China National Intellectual Property Administration (CNIPA) on May 17, 2024. Enclosed please find a copy of the receipt of this fee issued by CNIPA and our invoice for services rendered and disbursement in this matter.

CNIPA will issue the Certificate of Patent at the next stage.

The 8th year annuity shall be paid by **February 2, 2025**.

Should you have any questions or comments, please do not hesitate to contact us.

Please kindly acknowledge safe receipt of this letter.

Yours sincerely,

Title: INHIBITION OF PLATELET AGGREGATION USING ANTI-HUMAN GPVI ANTIBODIES

Chinese Patent No.: 2018800102270

Your Ref.: IBIO-739/CN

Lung Tin Ref.: 1906670FR08

Dear Sirs,

We are pleased to report that China National Intellectual Property Administration (CNIPA) has issued the official **Notification of Granting Patent Right and Going through the Formalities of Registration** for the above-identified application. Enclosed please find a copy of the Notification and its English translation thereof.

Please be informed that the applicant shall pay the 7th year annuity by **June 3, 2024**. If the above-mentioned fees are paid in due date, the patent certificate will be issued by CNIPA and the patent will enter into force from the date of announcement. Otherwise, the applicant will be deemed to have abandoned its or his right to obtain the patent right. The estimated cost is given as follows :

Items	Official fee (CN ¥)	Attorney fee (CN ¥)
Receiving and forwarding Notification of Granting Patent Right and Going Through the Formalities of Registration		450
Receiving and forwarding Patent Certificate		450
The 7th year annuity	2000	630
Miscellaneous Disbursements (including Facsimile & Postage & DHL)		100
Totals		3630

Please let us know the applicant's decision on above matter by **May 24, 2024** at the latest.

In addition, according to the relevant rules of the Chinese Patent Law, the applicant has the last opportunity to voluntarily or freely file divisional application(s) before the above-mentioned due date of paying the annuity, i.e., **June 3, 2024**. During the prosecution of the first-generation divisional application(s), the applicant is allowed to file second-generation divisional application(s) only if an official notification on the lack-of-unity defect is issued for the first-generation divisional application(s). We look forward to receiving your instruction at your earliest convenience if you would like to file divisional application(s).

Additionally, as you have learned, when responding to the Second Office Action, the applicant only kept some specific solutions in the claims and most solutions have been excluded from present application. According to provisions before CNIPA, this is the last opportunity for the applicant to file **one or more** divisional applications based on this instant application to protect these excluded solutions. Please kindly confirm whether the applicant wants to submit one or more divisional

applications to seek the protection of other groups of inventions. Meanwhile, please also note that effective from November 1, 2019, a request for deferred examination may be filed for an application for invention together with the request for substantive examination. The deferred period may be one, two or three years. By this route, the divisional application may be allowed pending longer and the applicant may have more time to consider the claims to be pursued or wait for any changes of the examination principles in order to have some possibilities of obtaining a broader scope.

We are looking forward to hearing from you soon. Should you have any questions or comments, please do not hesitate to contact us.

Please kindly acknowledge safe receipt of this letter.

Sincerely yours,

Zhibing LIU (Ms.)
